WINI Review Helps You Get Certified in Nursing Informatics

This conference focuses on trends and issues in practice facing the profession and provides a comprehensive examination of nursing informatics topics. The content provides an opportunity to gain nursing informatics specific contact hour continuing credit and learn about the ANCC Nursing Informatics Certification exam. Certification is a standard by which many informatics nurses are critiqued and it indicates that a nurse’s knowledge base is current and well beyond entry level. Enroll in the WINI program today and get detailed review information, practice tips, and test-taking strategies that you need to prepare for AACN’s Nursing Informatics exam. This course is based on the certification bulletin and provides you with an in-depth review of the information you’ll see on your certification test.

Benefits

All participants will receive the following materials:

- Syllabus notebook with handouts for all presentations
- A one-year subscription to *CIN, Computers, Informatics and Nursing*
- A copy of ANA’s *Scope and Standards of Nursing Informatics*
- A copy of the textbook (or similar) by Englehardt & Nelson titled *Healthcare Informatics: An Interdisciplinary Approach*
- 16.3 contact hours of continuing nursing education activity will be awarded
