EVENT OVERVIEW

The Colorado Rural Healthcare Conference returns this April 15-17 as the premier education networking event for representatives of rural hospitals and clinics in Colorado. Last year’s event was the first time the Colorado Rural Health Center (CRHC) hosted this event, a combined bigger event featuring both clinic and hospital attendees.

The upcoming 2026 conference will have two different educational tracks to cater to both hospitals and clinics. For our valued exhibitors and sponsors, that means a larger audience consisting of leadership from both Critical Access Hospitals AND Rural Health Clinics.

Between these different tracks, we will also share keynote sessions and networking time to come together to enhance Colorado’s rural healthcare services. These are times of great transition in the rural healthcare world. Yet, with the help of our sponsors and exhibitors, we are committed to our conference theme - **“Navigating a New Frontier.”**
