

# COLORADO CONGRESSIONAL DISTRICT 4

- Representative Buck-

## RURAL HEALTH CLINICS

- Rural Health Clinics (RHCs) are federally certified clinics located in non-urban healthcare professional shortage areas.
- RHCs must be staffed by at least one nurse practitioner, physician assistant or certified nurse midwife, who must be on-site to see patients at least 50% of the time.
- Often the only medical facility in rural communities, RHCs depend on sound business practices, Medicare, Medicaid, private insurance, and minimal grant funding to keep their doors open.
- The 51 RHCs across Colorado provide primary care services to an estimated 175,000 adults and children annually.

### Rural Health Clinics in Your District

**Akron Clinic**

**Arkansas Valley Medical Clinic**

**Brush Family Clinic**

**Centennial Family Health Center**

Data that was included must represent at least a 20% variance between district and rural/state averages. Data was compiled from various public databases, contact CRHC for more information.

# Colorado: Rural Health Facilities within County Designations, 2015

The definition of rural and frontier varies depending on the purpose of the program or policy in which they are used. Therefore, these are referred to as programmatic designations, rather than definitions. One designation commonly used to determine geographic eligibility for federal grant programs is based on information obtained through the Office of Management and Budget: *All counties that are not designated as parts of Metropolitan Areas (MAs) are considered rural.* The Colorado Rural Health Center frequently assumes this designation, as well as further classifies frontier counties as those counties with a population density of six or fewer persons per square mile. You may visit the Rural Health Grants Eligibility Advisor to determine if a county or address is designated rural, or contact the Office of Rural Health Policy at (301) 443-0835.
