Mark your calendars! Rural Connectivity User Group

Thank you to those who took the time to attend our May User Group. CCMCN and CRHC will continue to host quarterly user group meetings, with the next meeting on **Tuesday, August 8th, 10am - 11am MST.**

The objectives of these meetings will be to:

- ✓ Increase awareness of the Community Analytics Platform (CAP) and available reports
- ✓ Collaborate on new reporting ideas
- ✓ Increase utilization and comprehension of the CAP
- ✓ Gather feedback from users for enhancements to the platform
- ✓ Understand how organizations are using the CAP

Join us for our next Rural Connectivity User Group!

Data Sources Updates

Medicare & Commercial Claims

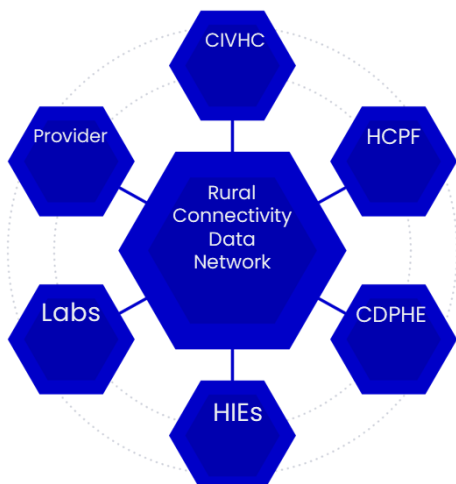

The Community Analytics Platform now allows end users to view claims data for Commercial and Medicare payers.

Medicaid Claims

The Community Analytics Platform now has Medicaid claims through Q3 of 2022.

Immunization Data

COVID-19 Immunization data can now be seen within the CAP for organizations that have completed a CIIS agreement.

NEW REPORTS

CCMCN strives to continuously create new reports that are beneficial to end users. Don't forget to log into the Community Analytics platform and check out the recently added reports below.

Community Analytics Platform – Cancer Report

“Technology-based solutions can help strengthen the relationship and communication between patients and their doctors. They can empower the patient’s well-being, help doctors make better decisions and enhance the therapeutic alliance between them. Thus, using technology to enhance communication in healthcare settings remains beneficial if its use is structured and target oriented.” The Rural Connectivity Project strives to provide organizations with HIT resources to view their patients’ and population’s health holistically.¹

What will be included in the Cancer Report?

- ❑ Data related to breast, prostate, cervical, colorectal, skin, lung, and uterine cancer for population served.
- ❑ Insight into their patient population who have:
 - ❑ A cancer diagnosis
 - ❑ Received cancer treatment
 - ❑ A cancer-related death
- ❑ Data on population eligible for screening and screening metrics for breast, cervical, colorectal, and prostate cancer.
- ❑ Social and Demographic information including age, race/ethnicity, gender identity, sex, payer, and more.

2023 ANNUAL RURAL HEALTH CONFERENCE

OCTOBER 5TH - 6TH

HYATT-REGENCY AURORA

13200 E 14TH PL
AURORA, CO 80011

REGISTER TODAY

coruralhealth.org/events/annual-conference

HOSTED BY
COLORADO
RURAL HEALTH
CENTER

Colorado Rural Health Center's Annual Rural Health Conference is the only conference in the state dedicated exclusively to rural health issues for rural hospitals, clinics, emergency preparedness entities, and other rural health facilities. Our conference provides information, resources, and networking opportunities to administrators and executives, primary care providers, quality and technical staff, and partners concerned with rural health and access to care. The exhibit hall will have companies with products and services at the forefront of industry trends and of practical use to rural facilities and providers, and participants will be able to connect to one another meaningfully and bring valuable insight into current issues facing rural communities.

Technical Assistance or Demo

If you are interested in receiving an in-depth demonstration of the CAP and all it has to offer or if you need technical assistance, please contact James Stephenson at js@coruralhealth.org or Demetria Flowers at demetria@ccmcn.com

Topics of Interest

Are you interested in learning more about a topic that has not yet been covered in the quarterly newsletter or CAP user group meeting? Submit any questions or topics to Demetria Flowers at demetria@ccmcn.com

Demographic Files and Trading Partner Authorization

Want to view data for your organization in the CAP? To begin participating in the Rural Connectivity Project, please reach out to Jessica Whiting at jessica.whiting@ccmcn.com or James Stephenson at js@coruralhealth.org
