

Introducing

Unmatched Facility
Visibility & Security

Powered by

Understanding the Needs of Healthcare Systems

Challenges:

- Real-Time Knowledge: **Who is in your Facility?**
- Protecting Your People: **Nurses, Patients, & Visitors**
- Control and Location: **Capital Medical Assets**

Consequences:

- Incurred Cost: **\$1.2 Million Annually**
- Loss of Revenue & Productivity: **1 in 4 nurses assaulted**
- Risk of Litigation: **\$500K-\$1M average settlement**

Know who is in your facility with HEALTHSecure+

+ IDENTIFY

Provides the knowledge of everyone inside the facility with a secure pre-registration process

+ LOCATE

Effortlessly track, quantify, and visualize visitors, staff & assets

+ ALERT

Enables healthcare Staff & First Responders to promptly and effectively respond to changing circumstances by understanding their surroundings

+ ENGAGE

Revolutionize patients and visitors' interactions by offering a centralized platform where users can seamlessly engage with your hospital.

+ MITIGATE

Safeguard sensitive data, meet regulatory compliance requirements, and ensure a resilient defense against cyber threats

+ IDENTIFY

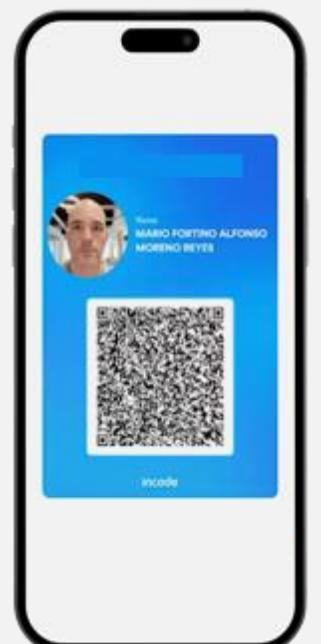

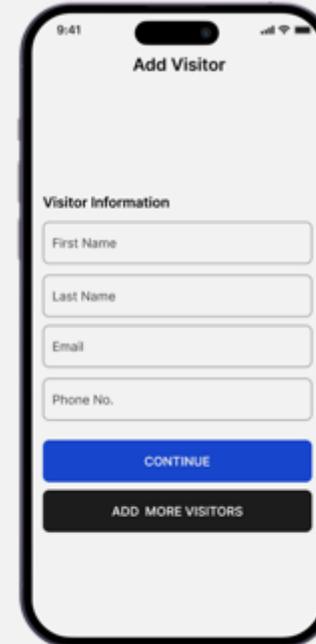

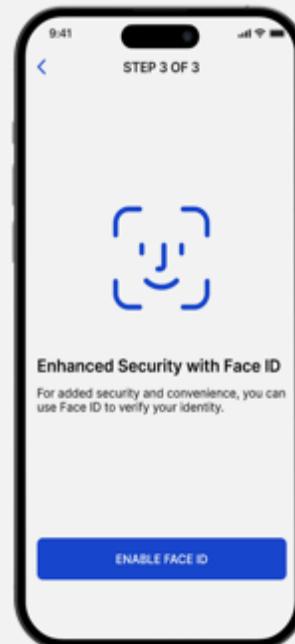

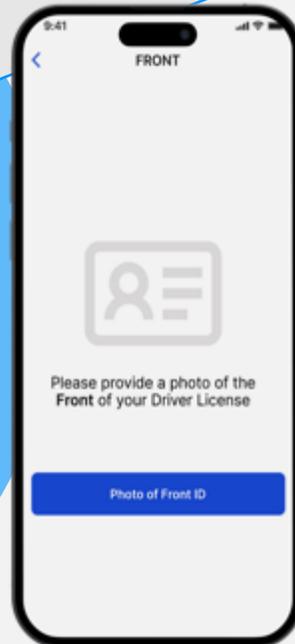

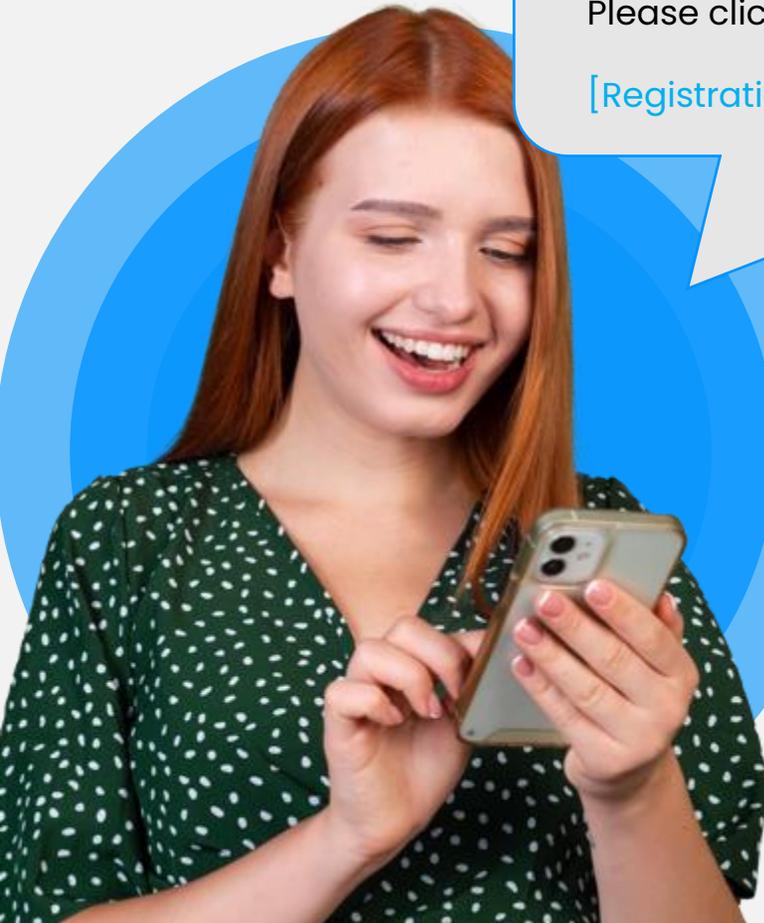

Patient & Visitor Registration

Hello Jessica!

Your appointment is confirmed! 🎉
Please click on the link to begin the registration process:

SCAN ID – BIOMETRIC – VISITOR LIST – VERIFICATION

+ LOCATE

Enhancing Visibility Patient, Visitor, Staff & Assets

- **Location Mapping:**
Utilize real-time data to know who is in your facility and reduce risk
- **Staff Deployment:**
Monitor Staff movements to enhance coordination and efficiency
- **Asset Tracking:**
Seamlessly tag and track assets, gaining insights into utilization. This will also help capital equipment loss

+ ALERT

Panic Button & Emergency Response

Customized Emergency Button System

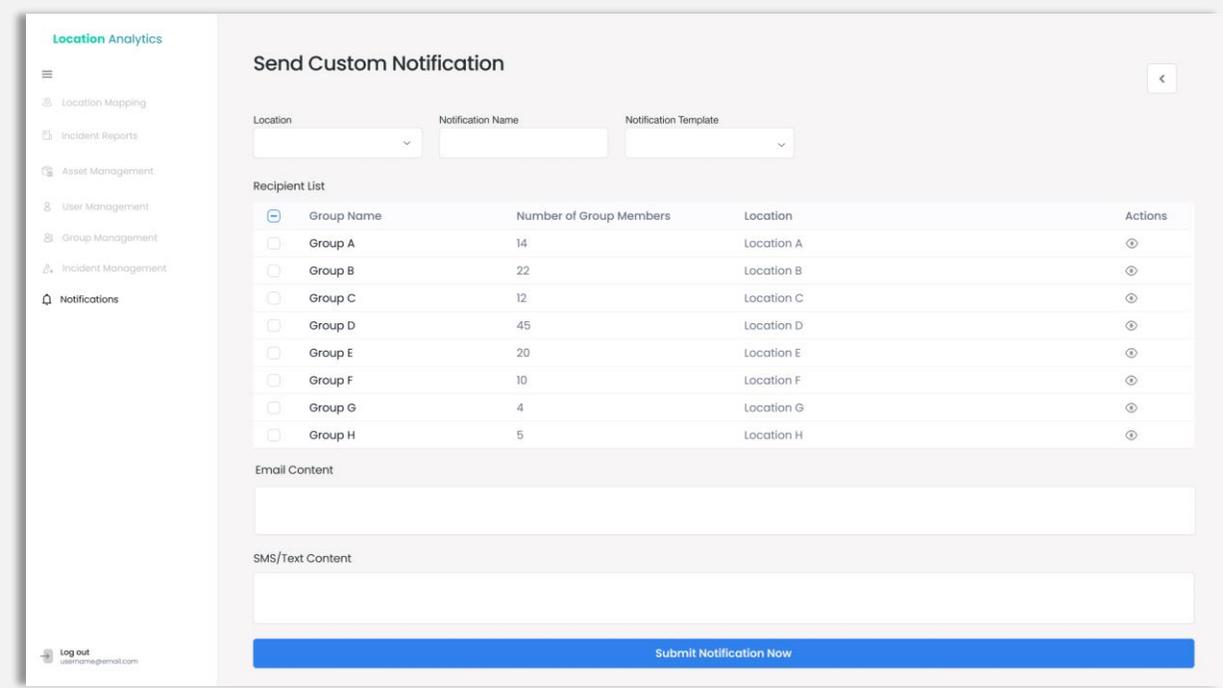

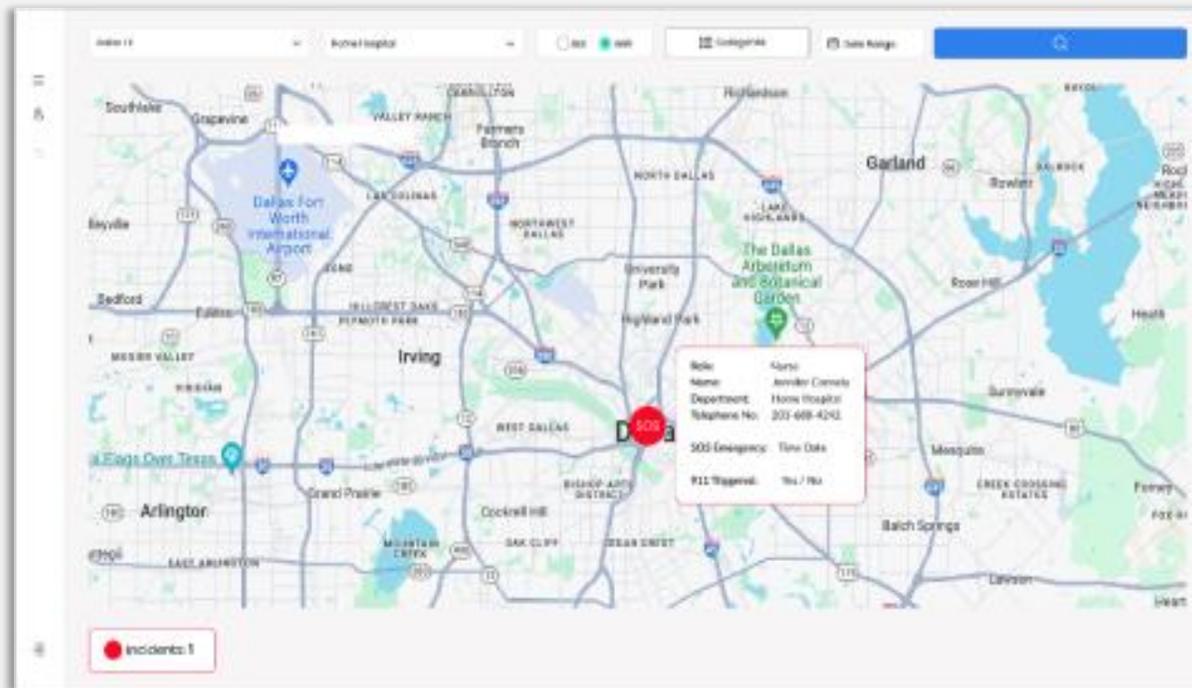

- Installed web-based application on Staff Devices
- Respond to Emergencies with real time location and incident data
- Protecting your most valuable assets (Patient/Personnel)

+ALERT

Panic Button & Emergency Response

Seamlessly alert security and first responders with simultaneous notifications of location and critical information for coordinated action.

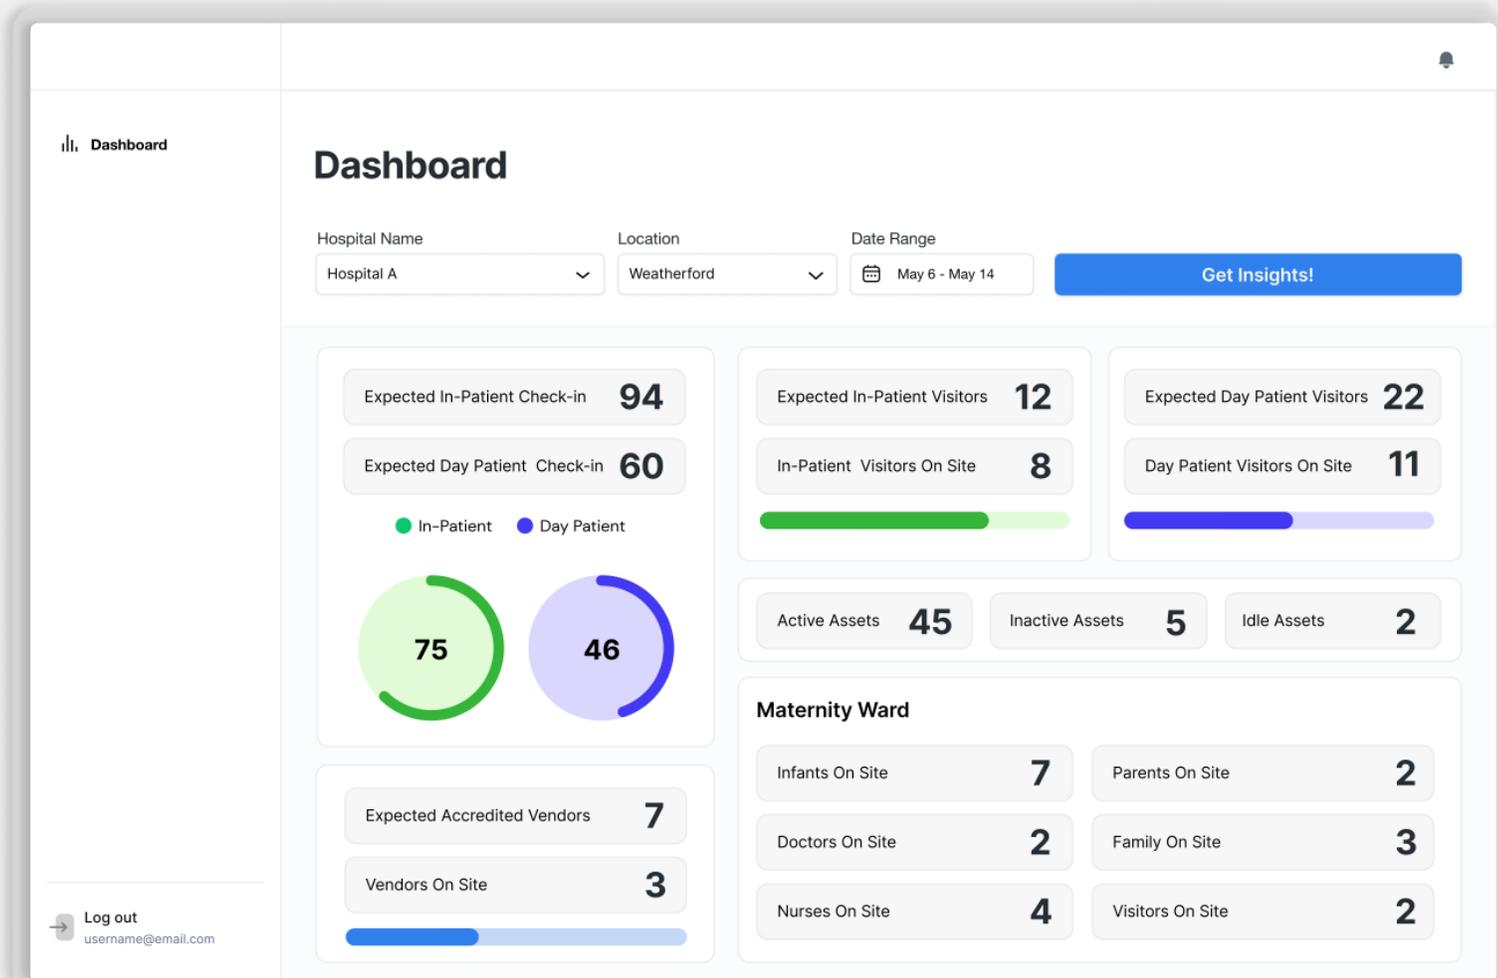

Analytics & Reporting

Unveiling Key Insights & Patterns

- Optimize work schedules and design security staff visibility plans
- Enhance Staff and visitor experience
- Utilize asset data to support capital equipment decisions
- Perform forensic analysis on staff, patients, and assets

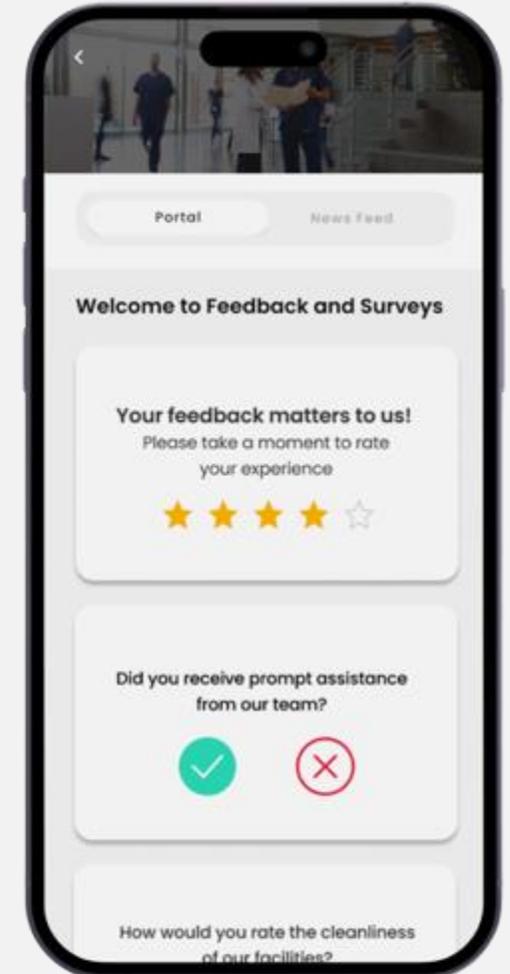

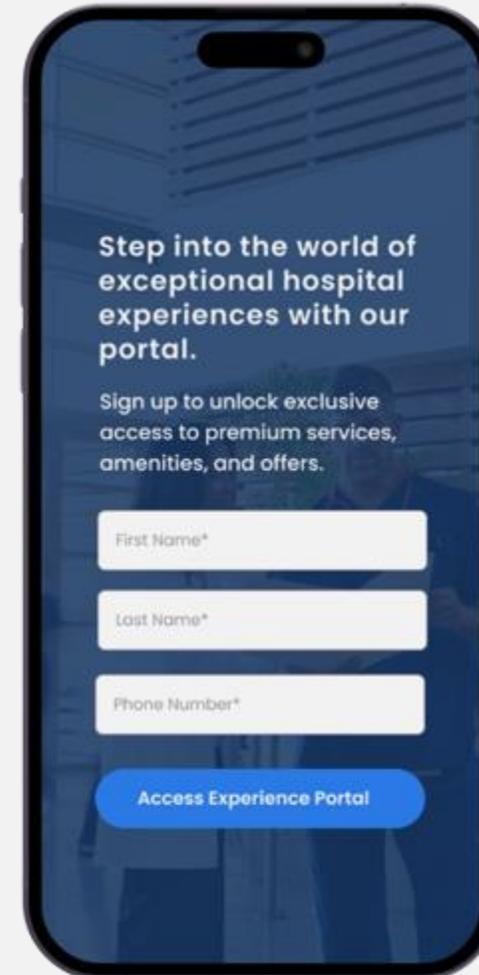

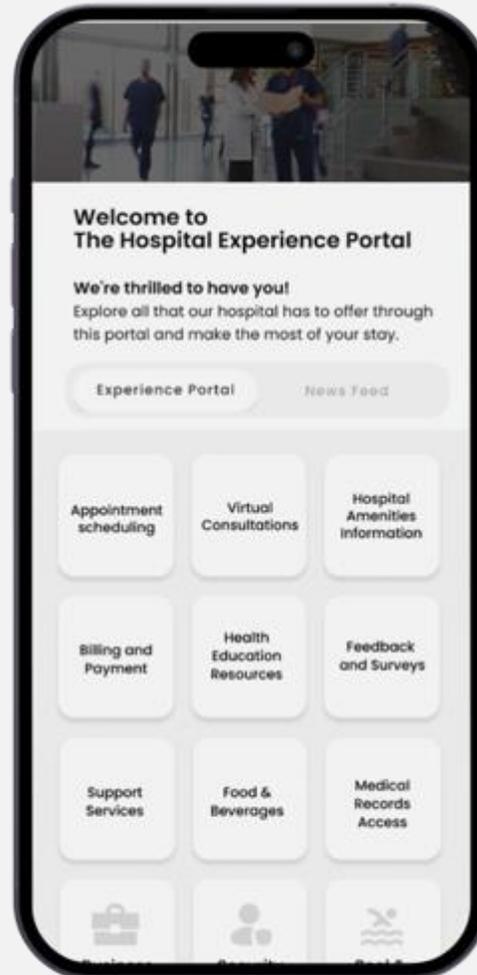

+ ENGAGE

Hospital Experience Portal

- **Promoted Services:**
Highlight new physicians and procedures to inform patients, promoting continuity of care
- **News and Events:**
Showcase health education programs, outreach events, and facility specific engagements
- **Surveys & Feedback:**
Obtain reviews, suggestions, or concerns through the feedback system
