

ADT Summary Report

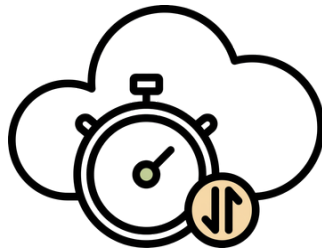

Within the Community Analytics Platform, the Admissions, Discharge, and Transfers (ADT) Summary Report includes 90 days of ADT messages. Integrating ADT review into standard workflows enables interdisciplinary teams to take timely action post-discharge, fulfill care management program requirements, and support proactive care coordination. Regular review of ADT trends can help reduce duplicative services, and improve patient outcomes.

ADT Reports are also available within the Cancer, Diabetes, and Cardiovascular Disease Screenings and Diagnoses Reports.

Real Time Data

Carina Health Network receives ADT messages about your attributed population from Contexture in near real time and updates the ADT Summary Report **three times daily**. These messages include information about:

- Sending Facility
- Patient Encounters
- Primary Diagnosis at time of encounter (when available)
- Type of Visit
- Message Event Description
- Patient Demographic Data

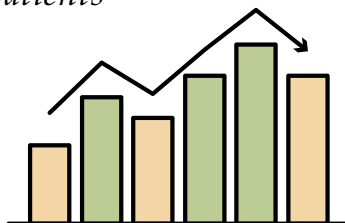

Tracking Patient Encounters

Patient Encounters are the documented interactions between a patient and facility. With the ADT Report, teams can segment and download patient lists based on visit type to follow up post discharge.

Time Frame: April 26 - May 2, 2026

58,819 encounters with 44,705 unique patients

- Emergency
 - 3,969 encounters, 3,613 unique patients
- Inpatient
 - 2,540 encounters, 2,287 unique patients
- Outpatient
 - 52,310 encounters, 40,494 unique patients

The data presented on this flyer is provided by Carina Health Network's Community Analytics Platform for informational purposes only and may be subject to limitations or updates.

THE CRHC TEAM IS HERE TO HELP!

As a participant in the [Rural Connectivity Program \(RCP\)](#), your organization can access CRHC's team of Quality Improvement Specialists (QIS) to help you enhance care delivery. Our QIS team is available to provide customized dashboard demonstrations, give insights into patient populations, and support your team in improving your community's healthcare outcomes. We're here every step of the way to make sure you get the most out of this platform for your organization.

For more information about the Community Analytics Platform, contact the CRHC QIS team at ruralconnect@coruralhealth.org
